72 hour training:

As you go through this training process. Make sure you write everything down and keep it in a place where you can review it often. These are proven principles and if you follow these steps you will be on your way to achieving your goals!

1. Become a product of the products. Make sure you are taking your products and enjoy the results!

2. Define your "why".

a. What specific experience or emotion will you have when you reach your goals with Synergy? Create this image in your mind with details!

b. What will your life look like when you reach your goals? How is that different from what your life is like now? Create a 'vision board' that illustrates this with pictures and hang it somewhere where you will see it often.

3. Set your goals. Is this opportunity something you want to pursue as a business or a hobby?

Remember that you will reap the reward that you sow from your efforts. Write down your goals.

a. How much income per month do you need to create with Synergy in the next 3 months, 6 months, 1 year and 2 years?

b. What pin levels will you achieve in 3 months, 6 months, 1 year and 2 years?

c. How much time per day will you invest in your business? Per week?

d. How many contacts per day will day you share with? Per week?

4. Are you willing to give this business a 2 year unconditional commitment? Put that in writing to yourself and your sponsor!

5. Make a names list. It should be a minimum of 25 names and could be 200 or more.

- a. Use the yellow pages to jog your memory. Who do you know that is an accountant, a dentist, a mechanic, etc.
- b. Categorize your names list into hot, warm, and acquaintance.
- c. Prioritize who you want to contact first with stars.

6. Go through the rest of the web training within 72 hours. This includes the steps in the success cycle, the compensation overview and the material in the 'how to' guru.

7. Get the tools you need. All of the tools are located on the "Marketing Tools" link on this website.

Distributor Resource Sheet (Printed below)

Your own "www.Argi9solutions.com" website (to set up website - call Scott Norton 801 615-0842)

You have 72 hours to change placement or sponsor if there is an error.
Write "72 hour change" on completed New Distributor Application and email or fax to Synergy.

ProArgi-9 Plus info:

How much ProArgi-9 Plus should I take?

When you're just starting, it's a good idea to take ProArgi-9 Plus with food. You may want to begin with 2 scoops per day. Take half of your scoops in the morning and half in the evening. Mix it with enough water to suit your taste.

For best results, it's important for most people to build up to 4 scoops per day as soon as possible for an aggressive therapeutic dose. Once you have achieved your health objectives, you may want to go to a maintenance dose of 2 scoops per day. It is not necessary to take ProArgi-9 Plus at any particular time.

If you experience diarrhea:

Make sure to take ProArgi-9 Plus with food. You may need to reduce to a smaller dose and build up more slowly. Or sip it throughout the day. Your body should adjust within a short time.

Diabetics:

Many diabetics report ProArgi-9 Plus "Citrus Berry" flavor works better with glucose levels. Contact your upline for more information.
